Advanced Beamer Features

Equations, Tables and Figures

Vikram Mehra

Technical Writing Lab 2026

November 12, 2026

Mathematical Equations

Beamer supports mathematical expressions.

Quadratic Equation:

$$ax^2 + bx + c = 0$$

Quadratic Formula:

$$x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$$

Pythagorean Theorem:

$$a^2 + b^2 = c^2$$

Creating Tables

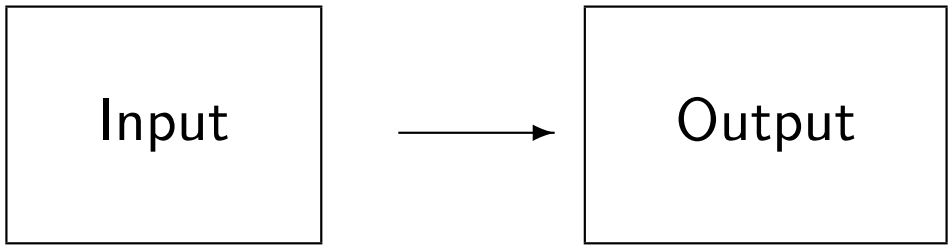

A table can be created using the tabular environment.

Student	**Subject**	**Marks**
Amit	Mathematics	85
Riya	Physics	90
Rahul	Computer Science	88

Table: Student Marks

Creating Figures

LaTeX supports simple drawings using the picture environment.

The picture environment can be used to create simple diagrams and illustrations.

Summary

- Mathematical equations can be displayed clearly.
- Tables organize information into rows and columns.
- The picture environment creates simple diagrams.
- Beamer combines these features into presentations.

Thank You!
